

## CITES/IUCN RED LIST DECLARATION

---

**CITES** (the Convention on International Trade in Endangered Species of Wild Fauna and Flora) is an international agreement between governments. Its aim is to ensure that international trade in specimens of wild animals and plants does not threaten their survival.

The **IUCN Red List** of Threatened Species™ provides taxonomic, conservation status and distribution information on plants, fungi and animals that have been globally evaluated using the [IUCN Red List Categories and Criteria](#).

**Havwoods Global Holdings Limited** (*Trading as Havwoods International*), a leading wholesaler of timber flooring and cladding materials (with operations in the United Kingdom, Italy and Australia), are proactively supporting the work carried out by CITES and IUCN Global Species Programme. We adhere to all requirements associated with our role to trade in species that may be registered as 'endangered', particularly in relation to the Forest Stewardship Council®, Programme for the endorsement of Forest Certification™, and the current European Union Timber Regulations, The Lacey Act and the Australian Illegal Logging Bill.

I, Oliver Whiley, as Chief Executive Office of Havwoods International, am responsible for the Company's operations and can declare that we will not trade in any species listed in the CITES Register or the IUCN Red List that are registered as 'endangered species'.
